

ABOUT ME

I am a passionate and detail-oriented software engineer with expertise in frontend development using React, Vue.js, and Material UI. With a strong background in C# ASP.NET MVC, Java, and Python, I have a diverse skill set that extends to UI/UX design, database management, and Windows server administration. I am driven by a desire to stay up to date with the latest coding trends and frameworks, constantly seeking new challenges to enhance my abilities. Committed to creating scalable and efficient systems, I approach software development holistically, combining technical expertise with a creative problem-solving approach. My dedication to continuous learning and my ability to adapt to new technologies make me an asset to any development team.

Skills

JAVA	=====
React.js:	=====
